

Empathy Map

Field	Details
Team ID	SWTID-2026-7253
Team Size	5
Team Leader	Bommidi Deepika
Team Members	G Uday Kumar, Kavali Anu, Pavan Kumar Sowdepalli, Dasarayyagari Sravan Kumar
Project	OptiCrop: Smart Agricultural Production Optimization Engine

Introduction

The empathy map helps understand the needs, thoughts, feelings and challenges of farmers using OptiCrop for crop recommendations based on soil nutrients and environmental conditions.

User Goals	Pain Points	System Opportunities
Accurate crop recommendations	Uncertain crop selection	AI-based crop recommendation
Higher crop yield	Unpredictable weather	Environmental suitability analysis
Efficient resource usage	Poor soil knowledge	Personalized recommendations
Sustainable farming	Low productivity	Data-driven farming decisions
Easy-to-use platform	Manual decision making	Fast web-based predictions

Conclusion

The empathy map identifies the expectations, behaviours and challenges of farmers. These insights help design OptiCrop as an intelligent, user-friendly and reliable agricultural recommendation system that improves productivity and promotes sustainable farming.
